### **DETAILED ACTION**

Due to the complex nature of the claims, no request for an oral election is being made.

Please see MPEP 812.01.

#### ***Election/Restrictions***

Claims 1, 4, 5, 13, 20 are generic to a plurality of disclosed patentably distinct species comprising SPECIES 1, general structure A; SPECIES 2, general structure B; SPECIES 3, general structure C; SPECIES 4, general structure D; SPECIES 5, general structure E; SPECIES 6, general structure F; SPECIES 7, general structure G; SPECIES 8, general structure H; SPECIES 9, general structure I; SPECIES 10, general structure J; SPECIES 11, general structure K. Applicant is respectfully requested to elect one of SPECIES 1-11. Additionally, since the species themselves are generic formulae, applicant is requested to further elect a specific compound embraced by the formula. To assist the examiner in her search, applicant is respectfully requested to submit a chemical structure of the elected compound. The claimed species are chemically and structurally distinct and the search for one species would not necessarily result in a complete and comprehensive search of the other. Finally, examination of such generic claims in their entirety would constitute an undue burden on the Examiner due to the disparity in chemical structure of the species embraced by the claims.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1614

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Cybill Delacroix-Muirheid** whose telephone number is **571-272-0572**. The examiner can normally be reached on Mon-Thurs. from 8:30 to 6:00 as well as every other Friday from 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Christopher Low**, can be reached on **571-272-0951**. The fax phone number for the organization where this application or proceeding is assigned is **571-273-8300**.
